MATH

We have finished our chapter on Linear and Non-Linear Equations and have already begun our unit on Pythagorean Theorem. Spring break will fall between lessons in this chapter so make sure you review during the break. **Enjoy! Sis. Anam**

Physical science has always kept the students on their toes, as it involves calculations and math. After the waves chapter, the students got their feet wet to dive deep into the characteristics of different kind of waves. Sound is a chapter that gives the details of the behavior of sounds. As we compare real life cases that are linked to waves, we expand our knowledge to witness how an average day can turn into much more complex when we look at our surroundings on a microlevel.

QUR'AN

Assalaamu'alaikum. Alhamdulillah, we have begun the study of Surah Rahman. Surah Rahman is one of the most fascinating Surahs in the Qur'an because of its unique style.

Allah (S.W.T) talks to both the Jinn and Mankind and constantly reminds them of his favours. This is so both species understand and recognize the mercy of Allah and grow an appreciation for him. Currently, we have completed Surah Rahman Ayahs 1-61, Alhamdulillah. Br. Ahmad
